

PRANEETH BABU POLU

Data Analyst & Full Stack Developer

+91 888-988-9900 polupraneeth@gmail.com polupraneeth.me Indore, India

SUMMARY

I have been working as a Data Analyst since 2016 during this period I have worked in different environments for an IT firm named WebCraft-IT. Along with this, I am proficient in web technologies and have experience of around 5 years working as a Web Developer in Freelancing Projects from Fortune 500 companies to start-ups with top-notch coding skills.

Experienced in interpreting and analyzing data to drive growth for a Supermarket company. Reduced operating costs by 15%, Furnish insights, analytics, and business intelligence needed to guide decisions. Additionally, leverage solid technical skills in emerging cloud technologies i.e. AWS and Oracle Cloud.

In addition, I am a GitHub Elite member with a contribution to many open-source projects with proficiency and passion for making open-source more accessible while creating technologies to elevate people and building community. My repertoire includes programming languages and tools such as Python, WordPress, ReactJS, and Jamstack (JavaScript, APIs+ Markup).

EXPERIENCE

Data Analyst

WebCraft-IT 02/2016 - Ongoing Indore, India

WebCraft is an International Technologies and Management Consulting Group with focus on regional clients. I was working collaborating with other developers and agencies, to integrate SAP Data Intelligence capabilities.

- Responsible for developing Pyspark scripts on a Databricks platform to meet client-side business requirements.
- Evaluated complex technical information, in a concise manner to technical and business audiences.
- Proficient in various open-source data analytic packages such as Pandas, NumPy, Matplotlib.
- Managed applied statistical models and algorithms to provide actionable business and strategic insights, performed ad-hoc analyses, and provided end-to-end product deployment to address business needs in the Commercial Excellence domain.
- Worked on a quick turnaround project involving data manipulations and analysis, and generated valuable insights on member shopping behavior.
- Proactively worked in the RDBMS environments and also in Non-SQL MongoDB, DynamoDB environment.

Full Stack Developer

Freelance 07/2015 - Ongoing Indore, India

StackAdroit was a digital agency owned by me for freelancing projects. Furthermore, I worked on other platforms i.e. [freelancer.com](#) and for local agencies as a web developer.

- Responsible for constructing modern frontend architecture, involving React, Redux, and ES6; a Node- powered workflow and build system involving WebPack and Babel.
- Worked on WordPress development projects including themes creations, customization, and building custom plugins.
- Deployed large scale website on versioning systems like GitHub, SVN, GitLab with load balancing capability on AWS Docker.
- Developed over 100 E-commerce websites with technologies including Magento, WooCommerce, and Shopify.
- Proficient in agile methodologies like Scrum, branching, build, deployment, and continuous integration methodologies.
- Implemented the highly scalable RESTful APIs for microservices of fetching User Credit Card info using Spring Data, MySQL.
- Developed an open-source WordPress plugin and continuously maintaining the source code for future upgrades of it.
- Maintaining code quality high by reviewing code from other developers and suggesting improvements, making sure they are reusable.

EXPERIENCE

Web Developer & Trainer

Orlando

09/2014 - 07/2015 Indore, India

Orlando is an authorized C-DAC Center of Ministry of communications and information technology for carrying out research and development in IT, Electronics and associated areas. My job responsibilities include providing Technical Support and worked as an Instructor to C-DAC students in Web Development Technologies.

- Supervised a team of 10 front end developers, giving support to the client's multi-cultural team, providing feedback, clarifying requirements, and helping with technical questions.
- Responsible for actively taking ownership and working end-to-end on applications from the system including servers, deployment, and configuration management.
- Managed the evaluation of design patterns, object-oriented design, and frameworks.

UX Designer

Gyrix TechnoLabs

09/2014 - 07/2015 Indore, India

Gyrix caters to clients across the globe with the execution of 250+ projects. My position at Gyrix was working as a part-time web designer, this opportunity allowed me to see how the product is designed from scratch.

- In charge of usability testing sessions and attended stakeholder interviews for UI improvement.
- Preaching the designer on User Experience, giving feedback about how to improve the overall experience of the application for the end-user.
- Master the problem areas by web traffic analysis using Google Analytics, Web Trends, and SEO data.
- Designed multiple websites wireframe based on the client requirements in Photoshop.

VOLUNTEERING

Teaching underprivileged children

SMM Gramiksha organization

2017 - 2019

SMM Gramiksha is a state-level development organization which is benefiting over 1000 children and their families every year by uplifting education, healthcare, livelihood in more than 50 remote villages and slums.

This NGO works for the betterment of children's education. It is helping children from various parts of Madhya Pradesh state.
